

L-DCS Grows at London Gatwick

Swissport are the second handler to install L-DCS at LGW for charter check-in.

Swissport, the leading handling agent, have installed L-DCS at London's Gatwick Airport, one of the busiest charter airports in the UK.

Running on the SITA CUTE platform, L-DCS will be used to handle all First Choice Airlines departures - a significant sized operation.

Swissport join existing user Aviance in reaping the automation benefits of L-DCS at LGW, as this very popular check-in system continues to grow.
