

L-DCS

Local Departure Control

L-DCS is the world's foremost Local Departure Control System. Featuring an enhanced, easy to use graphical interface and integrated Weight & Balance, L-DCS delivers rapid, cost effective automated check-in and boarding to tens of millions of airline passengers every year.

Ideal for Low Cost Carriers (LCC), Charter airlines and point-to-point operators,

Damarel's L-DCS takes passenger handling to the next level.

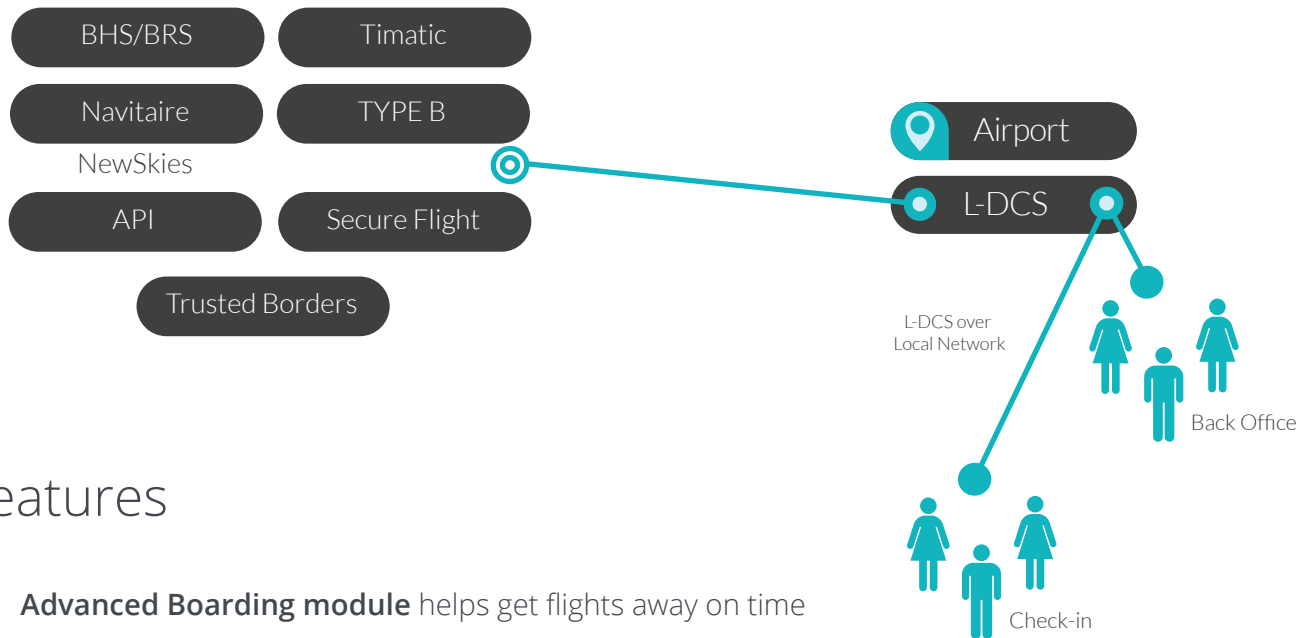

Benefits

- Proven DCS used around the world for over 15 years
- Clear, easy-to-use Graphical User Interface significantly reduces training time
- Rapid passenger check-in times for individuals and groups
- Simplifies check-in process, allowing agents to concentrate on customers
- Ability to integrate with airline's existing web and self-service check-in modules
- Promotes security and ensures compliance with regulations
- Certified on all major Common Use platforms
- Hosted in our Data Centre or implemented as a local LAN solution

For airlines, airports, ground handling agents and CUTE/CUPPS systems integrators, L-DCS is at the heart of operations of all shapes and sizes - from international airports with hundreds of check-in desks and gates, to small regionals with only a handful of positions.

With a fantastic track record and proven benefits, L-DCS is a solution that you can trust.
