

Passenger Self-Service Kiosk for L-DCS

Self-service check-in has driven the most profound change in how people experience the airport journey. Enthusiastically adopted by passengers, airlines and airports alike, self-service delivers benefits across the board:

- Passengers are in control of their journey and avoid lines
- Airlines reduce costs and improve oversight
- Airports can easily and affordably increase concourse capacity

Damarel's L-DCS Kiosk makes the self-service revolution available to more airports and airlines than ever before. Far more affordable and easier to adopt than expensive CUSS kiosks, these dedicated units are packed full of the latest technology to deliver the perfect check-in experience. Integrated boarding pass and bag tag printers make fast and efficient two-step bag drops a breeze. Scan your ID, print your bag tags and proceed directly to the bag drop for a smooth, rapid check-in experience.

Fully customisable for your airport, Damarel's attractive kiosks support all your L-DCS airlines – no fuss, no costly integrations, no lengthy app developments. Your passengers benefit immediately from seamless self-service, improving their experience and reducing pressure on airport infrastructure.

These modern, passenger-friendly stand-alone kiosks give you complete control over the number and placement of units. From dedicated self-service areas to extra capacity at traditional desks, you have total flexibility to re-imagine check-in and bag drop. Help divert traffic from high congestion areas, focus attention where you want it and transform your airport concourse. For ground handlers, airlines and airports, L-DCS is at the heart of operations of all shapes and sizes.

From international airports with hundreds of check-in desks and millions of passengers, to small regionals with only a handful of positions, L-DCS provides exceptional passenger handling.

Features

- Self-service for all L-DCS airlines - no integration required
- Fast, low-impact rollout
- Airline and airport branding opportunities
- Available in different form factors to suit your airport

Benefits

- Increased terminal capacity
- Modern passenger experience
- Reduced congestion and contact points
- Far more cost-effective than CUSS kiosks
- Lower staff overheads
